

GPHA Epidemiology Section Virtual Workshop:

NOW
VIRTUAL

Public Health Informatics and the Tools to Understand Infectious Disease Models

May 1, 2025

9:00 AM – 12:00 PM EST

Registration
required:
gapha.org

Please join the GPHA Epidemiology Section on Thursday, May 1 from 9:00 AM – 12:00 PM EST for a virtual workshop on public health informatics and infectious disease modeling. In collaboration with Emory's Center for Infectious Disease Modeling & Analytics and Training Hub (CIDMATH), this session will cover key topics from the original 2025 pre-conference workshop. The workshop will include an introduction to infectious disease models and an interactive simulation exercise designed to link traditional case investigations and predictive modeling via a fictitious infectious disease outbreak.
